- **Re J (Care Plan for Adoption) [2024] EWCA Civ 265**

Appeal by mother against a care order made in respect of her 9 month-old son.

- **Re T (care and placement orders) [2023] EWFC 106**

Vicky was instructed by Oxfordshire County Council in this application for care and placement orders in relation to 14 month old child.

- **Re A (care - judgment on appeal) [2023] EWFC 84**

Appeal by local authority against dismissal of application for a care order.

- Representation of a vulnerable young mother facing the removal of her baby daughter on a care plan of adoption. Following a successful application to adjourn the final hearing and instruct an independent toxicologist and tricolologist to interpret hair-strand test results, the Local Authority withdrew its application for a placement order, and the proceedings concluded with the child remaining in the mother's care. [2018]
- Representation of a father from initial hearing to final hearing in care proceedings where the Local Authority was seeking to remove his severely disabled child from a specialist residential school / care facility where he was both thriving and having a substantial amount of contact with his family, to place the child in foster care. Following a contested final hearing the proceedings concluded on the basis of a final care order with the Local Authority agreeing to change its care plan to enable the child to remain at the existing provision for the foreseeable future. [2019]
- Again from initial hearing through to final hearing, representation of a couple facing allegations of serious physical and emotional abuse of their emotionally fragile teenage child. Following a successful application for forensic interrogation of the child's electronic devices, and extensive sifting of the material obtained, the focus of the case switched and it was accepted that the child's presentation was attributable to issues associated with online grooming. A final care order was agreed between the parties with a plan for the child's future return home pursuant to a support package. [2020]
- Representation of a Local Authority in complex care proceedings involving parents and children with learning difficulties, an unrepresented intervener with borderline litigation capacity, and a range of allegations including NAI burn injuries and abrasions, sexual abuse and neglect. [2020]

and conditions being built into the final order. [2019]

- Representation of the child at final hearing in long-running proceedings involving allegations of parental alienation. The point had sadly been reached where the children's guardian was making a recommendation for 'no direct contact' between the father and her child, and the judge concluded the proceedings on that basis. [2019]
- Acting for a father in proceedings where the unrepresented mother had serious mental health difficulties. Proceedings were concluded in the absence of the mother on the basis of the father's recognition of the value of the children's ongoing contact with their mother, and commitment to facilitating this in a supervised setting for the foreseeable future. [2019]
- Representation of a parent in proceedings involving a dispute over the extent to which a child was allergic to the hair dander of the parents' respective pets, which included expert evidence on this issue.
